

SCTE™ Installers Course

A comprehensive course for installation technicians to be able to install CATV systems in a customer environment efficiently and effectively.

Endorsed by the SCTE™ - The Society for Broadband Professionals.

Delivered by Broadband Training or for individual study.

Topics include:-

- Communication Theory.
- Signal Processing.
- Signal Distribution.
- Fibre Optics.
- Installers and Their Tools.
- Survey of the Installation.
- Installation.
- Inside the Home.
- Troubleshooting.
- Safety Manual.

This course is available:-

- As a hardcopy reference manual and optional online exam.
- Using the online SCTE™ Learning Management System including exam.

Online exams are used by the SCTE™ to assess the students and award certificates to successful candidates.

The assessment structure is easy-to-use, questions are randomly allocated and pass/fail results can be given immediately.
