

# SCTE™ Network Technician's Course

An extensive course for network technicians covering commissioning and restoring services in CATV

Endorsed by the SCTE™ - The Society for Broadband Professionals.

Delivered by Broadband Training or for individual study.

## Topics include:-

- Service and Maintenance including Set-Up and Restoration of Service.
- Telephony Measurements.
- Hybrid Fibre Commissioning Procedures.
- Passive Optical Network Commissioning.
- Measurements and Test Equipment.
- QAM Modulation Measurements.
- Ingress and Egress Measurements.
- Optical Fibre Measurements and Testing.
- Safety Manual.

This course is available:-

- As a hardcopy reference manual and optional online exam.
- Using the online SCTE™ Learning Management System including exam.

Online exams are used by the SCTE™ to assess the students and award certificates to successful candidates.

The assessment structure is easy-to-use, questions are randomly allocated and pass/fail results can be given immediately.
