

SCTE™ Service Technician's Course

A comprehensive theoretical
course for service technicians in
the CATV industry

Endorsed by the SCTE™ - The Society for Broadband Professionals.

Delivered by Broadband Training or for individual study.

Topics include:-

- Responding to Service Call and Fault-Finding.
- Communication Principles for Analogue and Digital Networks.
- Return Channels for DOCSIS & EuroDOCSIS.
- Video and Audio Services.
- Network Services.
- Transmission Lines, Coaxial and Optical Fibre Cables.
- Downstream and Upstream Networks.
- Wi-Fi and Test Equipment and Measurements.

This course is available:-

- As a hardcopy reference manual and optional online exam.
- Using the online SCTE™ Learning Management System including exam.

Online exams are used by the SCTE™ to assess the students and award certificates to successful candidates.

The assessment structure is easy-to-use, questions are randomly allocated and pass/fail results can be given immediately.
